

About Us

A little about our business

FlexiCut Engineering is a small engineering and machining company based in Dandenong, Victoria founded in 2006.

With a breadth of experience in such industries as MotorSport, Toolmaking & CNC Machine Tool Training/Programming, we are in a position to offer our customers the very latest in CNC machining technologies and methods.

Our focus is customer satisfaction and we take great pride in delivering quality CNC machined components: On time, meeting or exceeding specification, and working together with our clients to achieve mutually beneficial outcomes.

We, as a company, have a goal. To become your favoured supplier. We firmly believe that we have the skills and experience that is required to achieve this. Underpinning this belief is our philosophy 'We can do better'. We understand what our clients expect of us and at FlexiCut Engineering there is no 'near enough is good enough'.

We deliver in all areas, all of the time.
